**About the current sawlog assortments, prices, supply volumes, please, call the procurement department telephone: +371 29488373; e-mail: [voldemars@smilteneimpex.lv](mailto:voldemars@smilteneimpex.lv)**

- **Sawn logs delivery volumes per each species and assortments must be agreed for each month separately!**
- **Sawn logs from forest areas in which are habitats are not accepted!**
- Sawn logs are electronically measured and quality is evaluated by surveyors from "VMF Latvia" Ltd.
- Quality requirements ( Latvian State standard LVS 82:2003):
  - Sawn logs must be:
    - freshly-cut,
    - pruned qualitatively,
    - sorted by species,
    - **with at least 7 cm over the length.**
  - Sawn logs are not allowed to be with:
    - diameter in thickest place over 40,0 cm, except root neck of first cut-off,
    - the simple sweep over 2.0 % and multiple sweep over 1.0 %,
    - metal inclusions,
    - rot, blue stain, insect damages, chink, scorch,
    - rotten or large-diameter branches,
    - apexes.
- Sawn logs that do not meet specified dimension or quality requirements, will be separated and returned to suppliers, unless there is an agreement in the contract of buying that assortment.
- Payment of the delivered sawn logs, according to timber cargo invoice, is made within ten (10) banking days.
- **Bonuses are paid for larger amounts of supplies.**
- Sawn logs are accepted 24 hours a day, 7 days a week.
- Place of delivery: "Silva sawmill" Launkalne parish, Smiltene County.
